

SLIM PRODUCTS PERFECTLY PRESENTED

WITH THE POS-T MINI-COMPARTMENT

The new POS-T Mini-Compartment is the ideal display solution for very slim products. It ensures perfect support and optimal visibility for products like cosmetics, tobacco or electronics on the shelf.

A presentation from the side is also space-saving, clear and attractive with the POS-T Mini-Compartment. The secure connection between the POS-T Pushfeed and Divider guarantees quick and easy installation as well as simple handling with maximum stability. In the Vario version, the POS-T Mini-Compartment can be shortened in 25mm increments, offering maximum flexibility for your display needs.

Your benefits:

- Suitable for very slim products (product widths: 14 to 28mm)
- Optimal visibility and orientation
- Reduced shelf maintenance effort
- Maximum utilization of shelf depth without rear attachment
- Continuous adjustment to different product widths
- Quick and easy assembly
